VOLUNTARY CONSERVATION

Dear Member,

Due to the continued hot and dry weather and a greater demand than normal, we are implementing Stage II of the ***Drought Contingency Plan***. This stage of the Plan is ***voluntary*** but we urge each of our member's participation so that we may conserve water.

At this time, we are asking all of our members to do the following:

- No outside watering (lawn watering) between the hours of 10:00 am and 6:00 pm except for hand held devices

We respectfully ask for all of our member's participation in this voluntary event.

The complete ***Drought Contingency Plan*** can be viewed at our website www.sardiswater.com by clicking on the "Miscellaneous Forms" link on our Home page. Please feel free to call our office with any questions or concerns regarding this or any other matter Monday-Friday between the hours of 8:00am and 5:00pm. I may be contacted directly by email at paul@sardiswater.com.

We thank you in advance for your participation.

Sincerely,

Paul Tischler, GM
